

PRODUCT INFORMATION MOVEFLOW MODULAR

An ideal express checkout!

MoveFlow is an ideal express checkout in stores or as complementary express checkout in supermarkets, DIY stores and convenience stores.

The system has a small footprint and is very clean and smart, making it easy for staff and shoppers to understand. The MoveFlow Modular can be equipped with card payment and integrated cash management. ITAB currently offer two levels of cash management systems with different speed, capacity, simplicity and security levels.

MoveFlow Modular is available in different sizes to meet any store requirement. A mix of MoveFlow, TwinFlow or EasyFlow is often recommended to create sufficient capacity for a mixture of basket-to-bag and trolley size sales.

MoveFlow is POS independent and fully integrated with ITAB SCO-API interface.

MoveFLOW MODULAR X1

MoveFlow Modular X1 is designed to work efficient in most basket-to-bag scenarios. The unit is designed for express customers and can thanks to the modular design easily be adapted to customer requirements.

MoveFLOW MODULAR X2

MoveFlow Modular X2 is preferably used in situations where the customer needs more packing space. Thanks to the modular design, the unit can easily be adapted to customer requirements when it comes to storage possibilities and shelf combinations.

MoveFLOW MODULAR X0 (Pay station)

MoveFlow Modular X0 has an optimized footprint and is used as an express checkout or as a pay station. The MoveFlow Modular X0 can easily be adapted to customer requirements regarding scanner/scale, cash management systems etc.

Main Features MoveFLOW Modular

Custom Colouring:

MoveFLOW Modular can be delivered in any colour or multiple colours to match every type of customer requirement.

Light Tower:

MoveFLOW Modular can be equipped with various light towers depending on customer requirements. Choose between ITAB's own solutions, or select a different standard solution available on the market.
